RE: Senate Bill 1292 - SUPPORT

Dear Senator Cortese,

The California Contract Cities Association (CCCA) writes to express our support of Senate Bill 1292, which allows cities to utilize an enhanced curb management system to enforce parking violations or automate parking payments.

Parking and traffic enforcement is essential to keeping our member cities' streets safe, functional, and accessible. By allowing cities to implement automated camera- and sensor-based curb management systems, SB 1292 would address a wide range of safety and traffic-flow issues in commercial loading zones, bike lanes, no-stopping zones, and crosswalks. These automated systems would also ease the administrative burden of enforcement, particularly for smaller cities with limited resources and staff. We applaud Senator Richardson for her leadership on giving cities more flexibility to employ technology that would improve safety, efficiency, and accessibility at the curb.

CCCA represents 80 cities throughout California. For more than 65 years, CCCA's mission has been to advance the benefits of the contracting model and strengthen local control. With collaborative governance as a focal point, CCCA has advanced its mission through education, advocacy, networking, and legislative access to protect and enhance the quality of life for more than 7.5 million residents. As a matter of policy, our organization supports and defends the rights of cities on policy issues pertinent to them. We thank you in advance for your consideration of our support of SB 1292.

Yours in service,

Marcel Rodarte, Executive Director

CC: Members of the Senate Transportation Committee
